

E-LEARNING STUDENT EXPECTATIONS

What is an E-Learning Day?

- E-Learning days allow our students to work from home, avoiding potentially dangerous road conditions or low temperatures.
- These days will allow students to continue their education without the loss of curriculum momentum resulting from school cancellations.
- E-Learning days are considered a regular school day and will not be added to the calendar at the end of the year.

How will I know there is an E-Learning Day and what a student needs to do?

- Announcements regarding E-Learning days will be provided through local news channels and will be posted on the Coordinated Youth & Human Education Enhancement Program Facebook page.
- Students will access assignments through their Google Classroom, unless otherwise informed by their teacher.
- Teachers will communicate their expectations and learning activities for that day on Google Classroom.

Included information:

- Where assignments and materials can be found
- Possible due date of assignments (E-Learning day plus one day)
- *For example, if an E-Learning Day is on Monday and students return to school on Tuesday, the assignment is due Wednesday in class.*

How can my student get help from a teacher?

- Teachers will be available via email and Google Classroom.
- Teachers will host an optional Google Meet for any academic assistance needed.

- The time of optional Meet will be included in the expectations posted on the Google Classroom stream.

How will attendance work?

- Teachers will post an attendance question on their Google Classroom, students should answer this question by midnight of the E-learning Day.
- A student is “present” if they do any one or more of the following:
 1. Answer the attendance question on Google Classroom by midnight.
 2. Turn in the online assignment.
 3. Join the optional Meet session.

Will there be Homebound?

- Homebound classes will be held remotely on E-Learning days. They will begin no sooner than 2:00 p.m.
